## FOUR LEVELS OF TRANSPARENCY

**Solid Color**

Provides rich, opaque color that hides the wood grain while allowing the wood's texture to show through.

**Semi-Opaque**

A unique finish that bridges the gap between full solid color coverage and semi-transparents.

**Semi-Transparent**

Adds subtle color while allowing wood's natural grain and texture to show through.

**Toner**

Adds a hint of natural color to wood's grain and allows texture to show through beautifully.

**Exceptional Penetration** Exceptional penetration from Acri-Shield means better protection from harmful outdoor elements such as sun, wind, rain and snow.

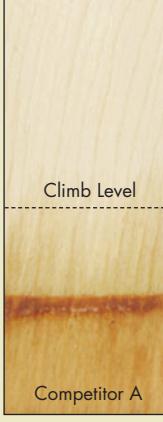

Climb Level

**Acri-Shield Alkyd/Oil Stain**

Climb Level

**Competitor A**

Climb Level

**Competitor B**

Pieces of pine wood were soaked overnight in beakers of solid color oil-based products to determine the degree to which the oil would "climb" up the wood. The first test photo shows the penetrating power of Acri-Shield Alkyd/Oil Stain. The next two photos show two of our competitors' oil-based stains.
